PROFILE

3D and motion designer creating hyperrealistic and stylized product visuals, environments and short-form films. Experienced in modeling, materials, lighting, camera animation and editing, with freelance CGI production and professional architectural visualization experience.

PROFESSIONAL EXPERIENCE

Freelance 3D Designer & Motion Graphics Artist

AETI Productions | 2024 - Present

- Produce CGI product visualization and motion graphics for technology, beauty and automotive projects, including independent spec advertisements.

- Build product models and environments; develop materials, textures, lighting, camera animation and final edits across hyperrealistic and stylized visual treatments.

- Use generative AI for concept exploration and selected 2D imagery, then develop animated sequences in After Effects.

3D Designer - Architectural & Interior Visualization

Al Jawal Contracting LLC | Dubai, UAE | Nov 2023 - Feb 2026

- Created architectural and interior visualizations in SketchUp and D5 Render for residential projects and client presentations.

- Refined materials, finishes, lighting and camera compositions to communicate design intent and support review by clients and project teams.

SELECTED INDEPENDENT PROJECTS

Apple AirPods - CGI spec project

Modeled from product blueprints; developed scenes, materials, lighting and camera animation.

Avon perfume - original concept advertisement

Designed and modeled a unique bottle, then built its CGI environments, lighting and motion.

Ford Mustang Dark Horse - automotive spec advertisement

Created AI-assisted imagery and After Effects animation, with cinematic direction and timing.
